- Considered a good introductory educational resource.

Criticisms and Concerns

- Some users noted that artistic images could be mistaken for real photographs if not clearly labeled.
- A handful of reviewers mentioned the lack of detailed explanations or supplementary materials.
- The calendar's size and format may not be suitable for all environments; some found it too bulky for small spaces.

Comparison with Contemporary Alternatives

In the landscape of educational and astronomical calendars, several competitors exist, including:

- NASA's Space Calendar: Focused exclusively on space missions and celestial events, often with more technical detail.
- National Geographic's Earth Calendars: Emphasize environmental conservation and geographic diversity.
- Starry Night or Astronomy Magazine Calendars: Offer detailed star charts and observational tips.

Compared to these, the Earth and Space 2019 Wall Calendar balances visual appeal with accessible educational content but may lack the technical depth of specialized products.
